Scale

This architectural elevation drawing shows a modern building with a flat roof. The structure features a prominent brick base and large, multi-paned windows. A central entrance area is visible, flanked by a staircase and a glass-enclosed section. The building is set against a background of a textured, hatched ground plane.

This architectural elevation drawing shows a two-story building with a symmetrical design. The central feature is a large glass facade on the second floor, flanked by brick walls. The ground floor features a central entrance with a glass door and large windows, also flanked by brick walls. The roof is gabled, and the building is set on a foundation with a decorative brick pattern.

This architectural drawing shows a two-story building facade. The ground floor features a large glass entrance area on the left, a central section with vertical slats and a staircase, and a right section with vertical slats. The upper floor has large glass windows on the left and a brick-clad section on the right. The building is set on a textured base representing the ground.

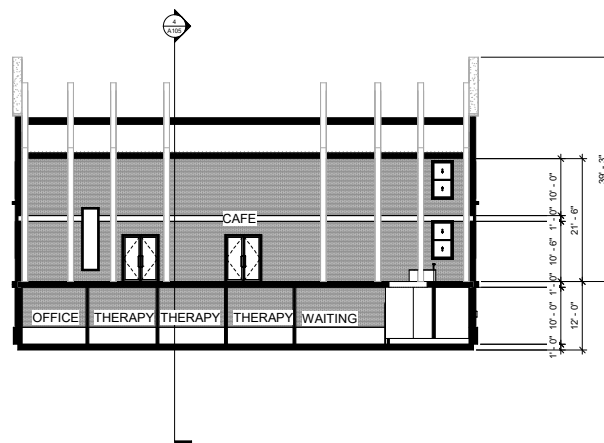

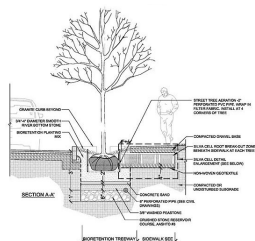

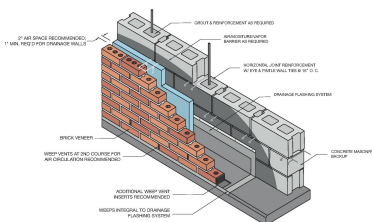

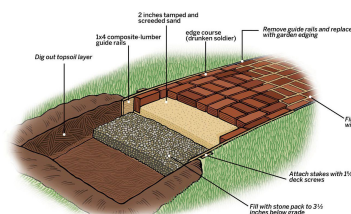

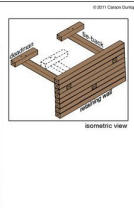

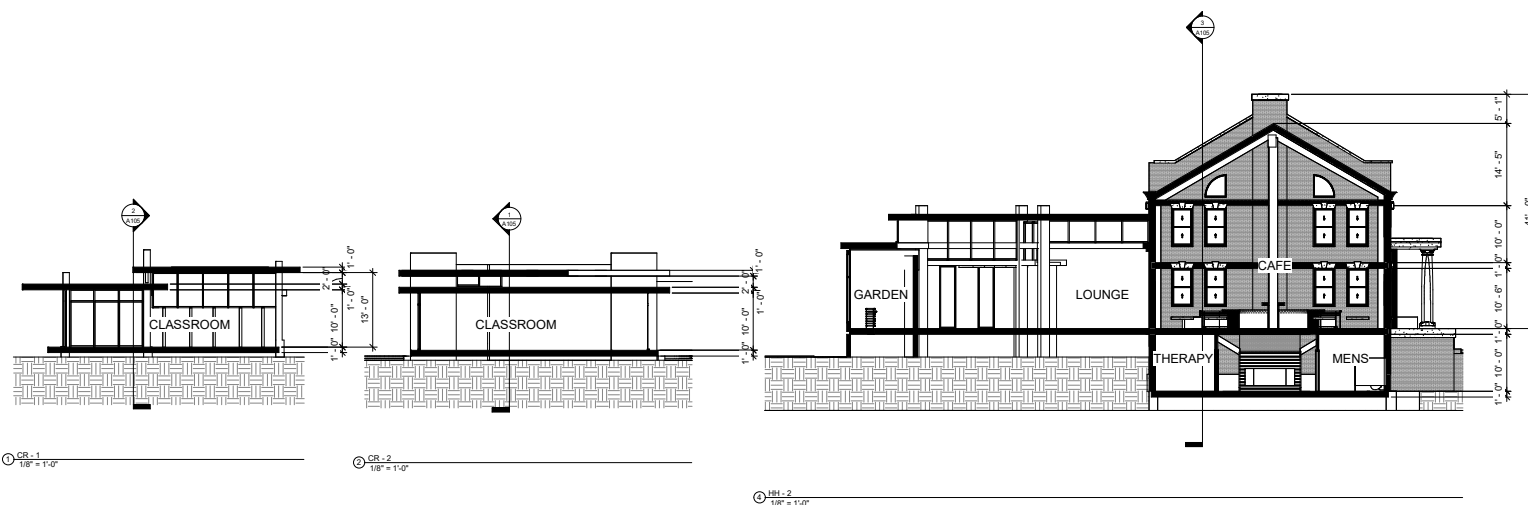

This architectural cross-section drawing illustrates the interior layout and structural details of a house. The main living area on the right is labeled 'LIVING ROOM' and features a large window. Adjacent to it is an 'INDOOR GREENHOUSE' with a glass-enclosed structure. To the left of the greenhouse is a 'DINING' area, and further left is a 'BEDROOM' with a window. The drawing includes vertical dimensions on the right side: 13'-3" for the main floor height, 11'-6" for the upper level height, and 1'-0" for the roof height. The foundation is shown with a hatched pattern at the bottom.
